Cholecystectomy, The indications for, 275; Relative merits of cholecystostomy and, 281; Cholecystostomy versus, 284
Cholecystostomy, Relative merits of, and cholecystectomy, 281; versus cholecystectomy, 284
Closing the skin in abdominal incisions, 373
Club-foot, The modern treatment of, 356
Colon, End-to-end anastomosis of the, 247
Colonic dilatation, Experimental studies in, 484
Congenital, deformity of the forearm and hand, tr. 251; genu recurvatum, 714; radio-ulnar synostosis, 696
Constitutional factor in gynecology and obstetrics, 98
Corpus luteum, The simulation of, and retention cysts of the ovary with ectopic pregnancy and early uterine abortion; a clinical and pathological study, 443
Cystitis, Infections of the bladder with special reference to localized resistant areas of, 655
Cystocele, A study of the anatomy, pathology, and treatment of uterine prolapse, rectocele, and, 42

DELIVERY, Difficult of shoulders, tr. 507
Drain, The wire gauze brain, cor. 377
Drainage, A new method of continuous, for empyema, 236; A technique for, or excision of the seminal vesicle, 487; tube, A spiral wire, for surgical drainage, 501
Duodenal ulcer, Chronic gastric and, 350

ECTOPIC pregnancy; a report of 106 cases, 224; following ligature and section of fallopian tubes, 376; and early uterine abortion, The simulation of corpus luteum and retention cysts of the ovary, a clinical and pathological study, 443; Early, tubular variety, tr. 507; Transplantation of, from fallopian tube to cavity of uterus, 578
Elbow-joint, Arthroplasty of the, tr. 509
Electrothermic coagulation, The treatment of malignant disease by means of deep roentgentherapy and, 14
Empyema, A new method of continuous drainage for, 236; Implants for the radical cure of lung abscess in, tr. 251
Enteroplasty for the relief of sigmoid obstruction, 113
Exostoses of the orbit, 221
Experimental, Recent, studies of the pancreas, 479; studies in colonic dilatation, 484
Extra-uterine pregnancy, Advanced, with living child, primary laparotomy, 317; tr. 378

FALLOPIAN tube, Ectopic pregnancy following ligature and section of, 376; A plastic operation upon the, for the production of temporary sterility, 622
Fascia and fat transplantation, 127; 141; transplantation into visceral defects, an experimental study, 383
Fat, Fascia and, transplantation, 127; 141; Hæmostasis by interposition of muscle, and fascia in parenchymatous organs, 85
Female, Sterility in the, 592, tr. 628
Femur, The treatment of compound fractures of the humerus and, by new apparatus, 491; Acute inflammation of the neck of the, 726
Fibroid, Porro operation for, complicating pregnancy, tr. 507
Fibromyxomata, Familial, of the peripheral nerves, a report of three cases, 287
Forearm, Congenital deformity of the, and hand, tr. 251
Foreign bodies in the tissues, The telephone as used for the localization and removal of metallic, 366

Fracture, of the skull, Air in the ventricles of the brain, following, 362; Compound, of the skull with loss of nearly half of the frontal bone and parts of the left frontal lobe of the brain, recovery, 364; The treatment of compound, of the humerus and femur by new apparatus, 491; devices, Two, 505; Vertebral, with luxation, transplantation of bone, 751
Frontal sinusitis, Intranasal treatment of, 115

GALL-BLADDER, The effect of removal of the, an experimental study, 437
Gastrectomy, Partial, in the treatment of chronic indurated ulcers of the stomach, 694
Gastric, Chronic, and duodenal ulcer, 350; ulcer, Results of surgical treatment of, 732
Genu recurvatum, Congenital, 714
Growth, of free bone transplants, an experimental study, 701
Gunshot wounds, Treatment of infected, 108
Gynecology and obstetrics, The constitutional factor in, 98

HÆMATOCOLPOS, hæmatometra, and hæmatosalpinx, in a woman of seventy-four, 37
Hæmatometra, hæmatocolpos, and hæmatosalpinx, in a woman of seventy-four, 37
Hæmogenic salpingitis, Chronic, 327; tr. 382
Hæmostasis by interposition of muscle, fat, and fascia in parenchymatous organs, 85
Hand, Congenital deformity of the forearm and, tr. 251
Hernia, The evaluation of the trauma factor in, malignancy, and tuberculosis, 177; Enormous, 215; through the triangle of Petit, 589
Hospital in France, Observations of a senior surgeon commanding the surgical division of a British Base, 454, tr. 510
Humerus, The treatment of compound fractures of the, and femur by new apparatus, 491

Hypospadias and its treatment, 511
Hysteromyomectomy, Abdominal myomectomy and, by morcellation, 329

IMMOBILIZATION of the spine, Operative, 428

Incisions, Closing the skin in abdominal, 373
Incontinence of urine in women, 296
Infected abdominal walls, A simple and efficient suture for fatty or, 617
Infections of the bladder with special reference to localized resistant areas of cystitis, 655
Inflammation, Acute, of the neck of the femur, 726
Intestines, Studies on the transplantation of the ureters into the, 482

JOINT injury, A unique repair of an unusual, 615

KIDNEY, The removal of stones from the, 1; Malignant papillary adenoma of the, 61; pelvis, A point in the differential diagnosis of pyuria together with remarks on lavage of the, 84

LABOR, Pituitrin in, tr. 378; Some observations on the conduct of the third stage of, 625
Leg, The etiology and treatment of varicose ulcers of the, 300
Liquid heat apparatus to supplant the electric cautery used by Percy, 242
Liver, The advantage of pleural effusion in giant hydatid cysts of the, 90; Medicinal treatment of amœbic abscess of the, 503
Local anæsthesia, scopolamine and morphia, The technique of thyroid operations with, 229
Lung, The surgery of bronchiectasis, including a report of five complete resections of the lower lobe of the, one death, 194; abscess, Implants for the radical cure of, in empyema, tr. 251

MALE, Sterility in the, 594, 597; tr. 628

Malignancy, The evaluation of the trauma factor in hernia, and tuberculosis, 177; The present status of roentgentherapy in the management of deep-seated, 580, 588
Malignant disease, The treatment of, by means of deep roentgentherapy and electrothermic coagulation, 14
Muscle, fat, and fascia, Hæmostasis by interposition of, in parenchymatous organs, 85; tendon-bone transplantation for old fracture of the patella, Free, 750
Myomectomy, Abdominal, and hysteromyomectomy by morcellation, 329

NECK of the femur, Acute inflammation of the, 726

Needle, The central-eyed, in surgery, 122
Neoplasms of the bladder, The surgical treatment of benign, 646, 648
Nephrolithiasis, Clinical data of, 8
Nerves, Surgery of the peripheral, 144; 147; Familial fibromyxomata of the peripheral, a report of three cases, 287
Nerve-block, Permanent, for chronic intractable pain, 500
Nervous system, The bladder changes due to lesions of the central, their description and treatment, 659
Neurological surgery, The field of, in a general hospital, 29

OBSTETRICS, The constitutional factor in gynecology and, 98
Obstruction, Enterpolasty for the relief of sigmoid, 113
Odontomata with special reference to their classification, 459
Omentum, Surgical research of the great, 474
Operation, A simple and efficient preparation of the field of, 375
Opisthotonus fœtus, 65
Orbit, Exostoses of the, 221
Os calcis, Operative treatment of pes cavus, stripping of the, 612
Ovarian, Carcinomatous, teratoma, with premature puberty and precocious somatic development, 604
Ovary, The variations in the blood supply of the, and their possible operative importance, 339; The simulation of corpus leteum and retention cysts of the, with ectopic pregnancy and early uterine abortion, a clinical and pathological study, 443

PAIN, Permanent nerve-block for chronic intractable, 500
Pancreas, Recent experimental studies of the, 479
Patella, Free muscle-tendon bone transplantation for old fracture of the, 750
Percy's "cold iron" method, Fatal complications of, in the treatment of inoperable carcinoma of the cervix, 156; A liquid heat apparatus to supplant the electric cautery used by, 242
Pernicious anæmia, with special reference to its surgical management, 533
Pes cavus, Operative treatment of, stripping the os calcis, 612

Pituitrin in labor, tr. 378
Plastic work, General rules used in simple, on Austrian war-wounded soldiers, 737
Porro operation for fibroid complicating pregnancy, tr. 507
Pregnancy, Advanced extra-uterine, with living child, primary laparotomy, 317; tr. 378; Ectopic, a report of 106 cases, 224; Early ectopic, tubular variety, tr. 507; Porro operation for fibroid complicating, tr. 507
Preparation, A simple and efficient, of the field of operation, 375
Prostate, Sarcoma of the, 336
Prostatectomy, a clinical study of fifty cases with particular reference to postoperative treatment, 120; transvesical, Technique of, details of two-stage operation, 162
Pyonephrosis, A method of re-establishing the patency of the ureter, in, preliminary report, 111
Pyuria, A point in the differential diagnosis of, together with remarks on lavage of the kidney pelvis, 84

RADIO-ULNAR synostosis, congenital, 696
Rectal anæsthesia by means of ether, report of cases, 370
Rectocele, A study of the anatomy, pathology, and treatment of uterine prolapse, and cystocele, 42
Renal, diseases, The significance of bladder symptoms in the diagnosis of, 91; surgery, Some aspects of, 641; tumor, Early diagnosis of, with the report of 5 cases and the demonstration of several pyelograms illustrative of the difficulty, 669
Research, Surgical, of the great omentum, 474
Roentgentherapy in the management of deep-seated malignancy, The present status of, 580; 588; deep, The treatment of malignant disease by means of, and electrothermic coagulation, 14

SALPINGITIS, Chronic hæmogenic, 327; tr. 382
Sarcoma of the prostate, 336
Seminal, vesiculitis, Technique of and observations on the operation of vasopuncture and medication for, 68; vesicle, A technique for drainage or excision of the, 487
Shoulders, Difficult delivery of, tr. 507
Sigmoid obstruction, Enteroplasty for the relief of, 113
Sinusitis, Intranasal treatment of frontal, 115
Skin, Closing the, in abdominal incisions, 373
Skull, Air in the ventricles of the brain following fracture of the, 362; Compound fracture of the, with loss of nearly half of the frontal bone and parts of the left frontal lobe of the brain, recovery, 364; Description of a new method of turning down bone flaps on the, 374
Spine, Operative immobilization of the, 428; Tuberculosis of the, end-results of operative treatment, 600
Spiral wire drainage tube for surgical drainage, 501
Sterility, in the female, 592, tr. 628; in the male, 594, 597; tr. 628; temporary, A plastic operation upon the fallopian tubes for the production of, 622
Sterilization, The Carrel method of wound, its use in military, industrial, and civil practice, 255
